

TREFFPACK

Your partner for ideal packaging solutions

APPLICATOR SETS: MADE IN GERMANY

Our applicator sets facilitate precise and controlled application of liquids on skin and other surfaces. Applicators, bottles and caps are being produced by ISO 9001 certified manufacturers in Germany.

OUR TREFFPACK CONCEPT

Consulting and supplying standardized packagings - spanning various markets and materials - are just as much part of our services as product and technical design, new developments and worldwide procurement. We are a one-stop shop for complete packaging solutions: expect a system of perfectly matched components.

ADVANTAGES

- ♦ controlled and precise application via cover material
- ♦ possibility of product flow control via the selection of the spring tension, the orifice as well as the cover material
- ♦ suitable for a variety of applications such as acne therapy, insect repellent, sunscreen, concealers, pimple treatment

ONE MECHANISM - SIMPLE USE

1. open the valve spring by applying light pressure to the applicator
2. soaking of the product onto the cover material
3. apply the product on skin/surface after saturation of the cover material

SIZE

- ♦ outer diameter approx. 21.5 mm: suitable for a modified 24/400 mouth for glass or plastic bottles
- ♦ other sizes can be produced on request

ORIFICES

- ♦ \varnothing 6.3 mm
- ♦ \varnothing 10.2 mm

TREFFPACK

Your partner for ideal packaging solutions
