Particularly ideal for commercial kitchens:

- ◆ Our plastic containers with UV-protection are perfect for sprinkling – they are available in 330, 500 or 750 ml sizes (additional sizes available upon request!). Their standardised 63 mm neck finish facilitates combining them with various flapper cap designs.
- ◆ If you are interested in grinding, we recommend a plastic grinder in a 375 ml version. The grinders have a built-in ring pull tamper evident seal.
