

TREFFPACK

Your partner for ideal packaging solutions

APPLICATOR SETS: MADE IN GERMANY

Our applicator sets facilitate precise and controlled application of liquids on skin and other surfaces. Applicators, bottles and caps are being produced by ISO 9001 certified manufacturers in Germany.

OUR TREFFPACK CONCEPT

For more than 150 years now, we have been creating and developing innovative packaging solutions, working with manufacturing partners worldwide. We can offer both off-the-shelf standard items and also customised designs, combining perfectly matched components. Our customers strongly appreciate our comprehensive knowledge, our technical expertise and our dedication to first-class service.

ADVANTAGES

- ♦ controlled and precise application via applicator sponge
- ♦ possibility of product flow control via the selection of the spring tension, the orifice as well as the applicator sponge
- ♦ suitable for a variety of applications such as acne therapy, insect repellent, sunscreen, concealers, pimple treatment, cosmetic cleaning

ONE MECHANISM - SIMPLE USE

1. open the valve spring by applying light pressure to the applicator
2. soaking of the product onto the applicator sponge
3. apply the product on skin/surface after saturation of the applicator sponge

SIZE

- ♦ outer diameter approx. 21.5 mm: suitable for a modified 24/400 mouth for glass or plastic bottles
- ♦ other sizes can be produced on request

ORIFICES

- ♦ \varnothing 6.3 mm
- ♦ \varnothing 10.2 mm

TREFFPACK
